exposed premises in excellent condition.

Town of Victoria Park confirm approved Use as Consulting Rooms means premises used for the investigation and/or treatment of physical or mental injuries or ailments in the practice of a profession by a person who is a legally qualified medical practitioner, dentist, physiotherapist, podiatrist or similar, but does not include a masseur and does **not** include a premises practicing therapeutic massage or similar.

What a great investment, (A) being good medical premises approved for four practitioners and (b) with a great underpinning land value the bale out option when you choose of subdividing the lot into 4 survey strata lots and with up to \$50,000 government benefits currently being available to first home buyers, land in the range of \$200,00 to \$250,000 per strata lot is now selling like hot cakes. We all know that land is king which is where the appreciation in value mainly occurs. Enjoy working in your own premises and reap the rewards of subdivision at prevailing land values when you retire. Win Win.
