* 2 qualified bidders - current bid \$480,000 *

Located in Landsdale, this family home will be a joy to come home to at the end of the day.

The home has lovely street appeal, with modern, rendered elevation and double remote garage. Synthetic lawn and healthy, established hedging will be a breeze to maintain. The light Colorbond roof is an excellent choice both aesthetically and environmentally, helping to keep the home cool in our hot months.

The master bedroom is at the front of the property, and will easily accommodate a king size bed. Behind the bed is the walk through robe with plenty of room for her clothing and shoes...and his, of course. There is also a split system A/C unit and sunscreen/block-out roller blinds to keep you comfortable.

The ensuite features a double shower with rain heads, double vanities and separate WC.

The lounge/theatre room off the hallway could also easily be used as a study or play room.

Walk through to the light-filled, open-plan living/dining area and be wowed by the sleek kitchen featuring island bench with stone tops, glass splashback, stainless steel appliances and walk-in pantry. Another split system A/C unit in this zone.
