Stirling

You won't need eyes in the back of your head...

You can drive your friends mad with envy from the minute they see the front of your new home. First impressions were definitely considered important from what I can tell. Then comes a full featured 4 brm 2 bth home with a study that starts to tell you how you might make the most of the home.

Your movie and football night is taken care of in the purpose designed and fully equipped theatre that is sufficiently closed off so your parent time doesn't wake the kids. All on the ground floor the granite kitchen with island bench overlooks a generous family room, enclosed games with French doors, extra-large dining room and alfresco. You won't need eyes in the back of your head here.

Just so you don't have to go through year after year saying, "I'll get cafe blinds to get the most out of the alfresco," the owners have done this for you. All of this on an easy care block where there's possibly room for a very small lap pool. Otherwise. it's just enough garden to enjoy the look of without tying you to endless hours of gardening.
