6 Sonia St, Scarborough

Coastal & Quirky!

Architecturally designed by Chris Hazebrook and built to a very high standard. When it comes to contemporary coastal living, this impressive 3 bedroom 2 bathroom residence truly is a street-front special in sought-after South Scarborough. Nestled on an intimate street in between the sprawling Butlers Reserve and another local park – next door to the buzzing Doric Street food and coffee strip.

A host of subtle features throughout the residence help remind you just how close to the glorious surf and sand you actually are, from the balustrade etchings to the various colours and materials utilised in the property's construction. Secure pin-code access to the front gate ensures overall peace of mind, whilst also enclosing a lovely front-yard lawn area with a gorgeous palm tree, plenty of shade, an Everdure gas barbecue and a sunken and protected courtyard for sitting, relaxing and unwinding.

Double doors reveal direct access from that front courtyard, into a sunken open-plan dining, kitchen and living area downstairs that plays host to splendid tree-lined inland views across the park to the west, a gas bayonet for heating, split-system air-conditioning, three skylights (to a feature high-ceilinging area) and a separate set of double doors – extending out to a private north-facing rear drying courtyard. Two further sets of double doors extend entertaining out to a paved central courtyard with two shade sails – and wraparound access to the back drying area.
